

## INTERNSHIP PLACEMENT FAQ

**1. What kind of commitment does NYFS expect of interns?**

We ask that all our interns commit to 20 hours a week for a full year. We also ask that you are able to work 2 evenings a week until 8pm.

**2. Does NYFS offer paid internships?**

Internships at NYFS are unpaid. However, many interns go on to become full time employees at NYFS after they complete their internship.

**3. What does supervision look like?**

Interns and agency clinicians meet once a week for a group consultation. Interns also meet once a week with an approved supervisor for 1:1 supervision.

**4. How many clients will I see?**

The typical caseload for an intern is 10-14 clients a week.

**5. Do I start seeing clients right away?**

The first two weeks of your placement will be orientation only. You will likely shadow therapy sessions and intakes, but you will not see a client of your own until your third week at the agency.
